## Mosaic Monstrosities

These monstrous mosaic's are made by arranging small colorful pieces of paper together to create a creature. Let's put that pile of junk mail and old magazines to good use!

### MATERIALS

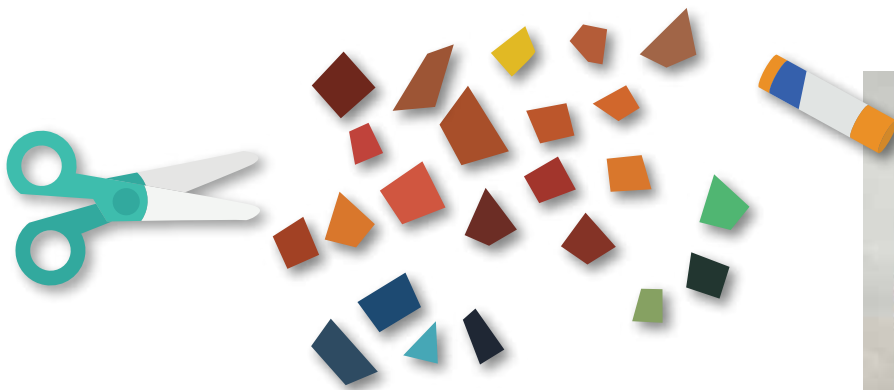

- Junk Mail and old magazines
- Glue Stick
- Scissors
- Pencil
- Piece of paper

### STEP ONE

#### Monster Outline

Draw an outline of your monster on a piece of paper

### STEP TWO

#### Make your Tiles

Flip through the junk mail and old magazines, and cut up brightly colored pages. You can cut the pieces into any size or shape you wish. You may want to place the colorful pieces of paper on a paper plate or dish while working, or sort into color families

(keep extra pieces in an envelope or plastic bag when you are not working, or save for other projects!)

### STEP THREE

#### Mosaic your Monster!

Use the glue stick to attach your paper pieces. Leave some space between each piece.
