Bold and Bright Photo Frames

Califas Legacy Project artist **Jaime Sanchez** uses pattern and color to make vibrant and interesting works of art. Patterns are created by repeating shapes, doodles, lines, or color. For this project, you will use patterns and bold colors to create a frame for an image of someone you look up to.

MATERIALS

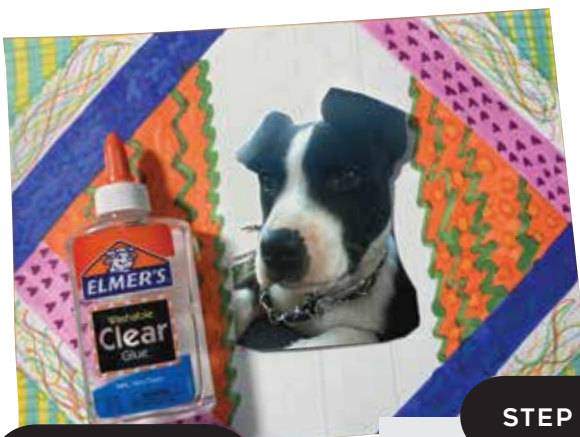

- Paper
- Markers/Crayons/Colored pencils
- Pencils
- Black pen
- Scissors
- Photograph

STEP ONE

On a blank piece of paper, **sketch a pattern** with a pencil throughout the whole paper

Your pattern can include squiggles, lines, strawberries, moons, and stars, whatever you like! Just remember that your shapes or lines should **repeat!**

STEP TWO

Trace over your sketches with markers, crayons, or colored pencils. Be as vibrant and colorful as you can be!

STEP THREE

Glue or tape a photograph to the middle of your colorful work.

Hang your photo frame where it can inspire you everyday!
